Q: Form Focus to Javascript First of all, I am a newbie in the world of programming. I am doing some exercises but I am stuck here and not sure how to get out of this. This exercise is for me to make a number guessing game. The idea is that I have to make a form with 3 input boxes. Each time I enter a number, it will add to the total. And it also should show the total, that should be the number of the 3 input boxes (so that when I pressed the ENTER button, it will be shown in one of those input boxes). But I am not able to do so. I would appreciate the help! Also, the total function is within the script tag in the HTML file, but I am not sure how to call that function in the javascript script file. Here is the HTML: Number Guessing Number Guessing
